

CHARLIE TELJEUR

WRITER/DIRECTOR/VIDEOGRAPHER/CARTOONIST/AUTHOR

WHAT I AM

Idea creation is my forte. I like the thought of building something from thin air. I hate the mundane and believe that "good enough" is never good enough. Why waste time doing something people will never see?

There is always room for creativity even when you're told there isn't. If you don't see it, you need to try harder.

The visual and the literal are equally important. What's vastly underrated though is the emotional. If you don't care, people won't care.

Tool-wise I'm fluent (to a Ninja level) in all the pertinent Adobe Suite programs from Photoshop to InDesign to Premiere Pro. School-wise I have an Animation Degree from Sheridan College which could be considered the Harvard of cartooning if Mickey Mouse were to endorse that sort of thing.

I'm all over the sports world. Most of my past work has dealt with the various professional leagues via editorial type material. I'm not stuck in sports but sports are definitely stuck in me.

Ultimately what am I after? Two things. First, to gain as much power to influence as possible. And second, to find someone who laughs like Barney Rubble.
